Continuation of Substance of Interview including description of the general nature of what was discussed:
Applicant was informed that the previous office action had erroneously treated this application as a regular U.S. application instead of a PCT 371 application. However, upon further examination, it was determined that the restriction requirement under unity of invention rules are the same as set forth in the previous office action. Applicant agreed to the lack of unity restriction requirement and elected the same group and species as set forth in applicant's previous response to restriction requirement filed on 11/22/2004. .
